

Torino, 7-8 July 2022

The 8th International workshop on Plasmonics and its applications

Submit your contribution for Oral and Poster presentations on the following topics:

Nonlinear plasmonics
Quantum plasmonics
Ultrafast nano-optics
Plasmon-exciton polaritons

Thermo- and Magneto-Plasmonics
Metamaterials
Hybrid metallo-dielectric nanophotonics
Spectroscopy and nano-imaging

Surface Enhanced Raman Scattering
Metal-enhanced fluorescence
Sensors and Biosensors
Devices and Applications

Organizing Committee

Alessandro Chiadò
Emiliano Descrovi
Fabrizio Giorgis
Chiara Novara
Paola Rivolo
